PROFESSIONAL SUMMARY

Aspiring software engineer with experience in frontend development, project management, and data analysis. Skilled at building responsive apps, dashboards, and community tech programs. Passionate about solving real-world problems with scalable technology.

EDUCATION

University of Ilorin, Nigeria – B.Eng. Water Resources & Environmental Engineering (Exp. Jul 2025)

WORK EXPERIENCE

Software Eng. Intern — Bizedge (Sept 2024 – Present)

- Improved frontend performance by 30% through optimization & lazy loading.
- Built responsive UI (React.js, Bootstrap) & integrated REST APIs.
- Wrote unit tests (Jest) and joined Agile ceremonies.
- Collaborated via Git branching & peer code reviews.

Project Mgmt. Intern — Friesland Campina (Jun – Sept 2023)

- Coordinated meetings and tracked deployment milestones.
- Supported testing & bug reporting during software rollout.
- Documented workflows in Confluence.
- Communicated with stakeholders to refine requirements.

Water Eng. Intern — Ministry of Water Resources (Jun – Sept 2022)

- Analyzed datasets & produced structured reports.
- Prototyped designs and applied root-cause analysis.
- Supported documentation & optimization.
- Assisted with GIS-based mapping for water projects.

PROJECTS

CRM & E-commerce Desktop App (JavaFX, H2, Maven, OpenPDF)

- Developed CRM app with customer/product/order modules.
- Implemented CSV/PDF export, print support, and dashboards.
- Designed modular architecture with Maven and delivered modern UI/UX.

Real-Time Analytics Dashboard (ASP.NET Core 8, React, TS, MongoDB, SignalR)

- Built BI dashboard with live metrics, reports, and predictive analytics.
- Integrated WebSockets for real-time sync and interactive widgets.
- Added ML forecasting models with accuracy validation.
- Delivered responsive UI (React, Tailwind, Chart.js).

VOLUNTEER / LEADERSHIP EXPERIENCE

Tech Educator & Organizer (2023 – Present)

- Led coding workshops & hackathons (100+ students).
- Mentored school clubs in robotics/web dev.
- Partnered with NGOs for digital skills training.

Welfare Sec., Student Association (2023 – 2024)

- Organized climate sensitization & recycling campaigns.
- Coordinated 5+ outreach programs.
- Built partnerships with local organizations to support events.

SKILLS

Technical: Java, JavaScript, TypeScript, React.js, Spring Boot, Bootstrap, MySQL, MongoDB, Git, GitHub, Postman, Jira, Confluence, Jest, Swagger/OpenAPI

Concepts: OOP, REST APIs, Agile/Scrum, MVC, Responsive Design, Debugging, Unit Testing
